Carrier Objectives

Currently, I am seeking to secure the role of a Junior front-end Web Developer and I would like to pursue my career in the Web Development field. I am a highly motivated Web developer looking to harness my skills in web development. I am a dedicated and energetic individual who is always open and engaged in learning new technologies and excelling in the pursuit of high achievement. I have in-depth knowledge of HTML, CSS, Bootstrap, JavaScript, ReactJS, NodeJS, Java, PostgreSQL Database, MySQL, Microsoft SQL Server Management Studio, Git, etc.

Skills

TECHNICAL SKILLS

- | | | | | | |
|--------------|---|------|------------|--|------|
| • HTML |  | 9/10 | • CSS |  | 8/10 |
| • JavaScript |  | 8/10 | • React Js |  | 8/10 |
| • Java |  | 6/10 | • Node Js |  | 7/10 |
| • Bootstrap |  | 8/10 | • Database |  | 7/10 |
| • Git |  | 6/10 | | | |

SOFT SKILLS

- Problem-solving
- Work in a Team
- Work Independently
- Communication Skills

Education

Professional Year – QIBA, Sydney, NSW	March 2023 - Present
Bachelor's degree of Information Technology: - Victoria University, Sydney, NSW	July 2020 - Sep 2022
Diploma & Advanced Diploma of Information Technology: - Kingston Institute Australia	May 2017 - June 2020

Projects

Weather Forecast: - <https://weather-forecast-pearl.vercel.app>

- Implemented a user-friendly interface displaying current weather conditions, hourly forecasts, and a 7-day outlook.
- Utilized HTML, CSS, JavaScript, Bootstrap, and ReactJS to create an engaging and visually appealing user experience.
- Deployed the application using Vercel, ensuring seamless performance and accessibility.
- Integrated weather data APIs to fetch and display location-specific weather information.
- Ensured responsiveness and cross-browser compatibility, optimizing the site for various devices.

Movie Collection - <https://movie-finder-api.vercel.app/>

- Utilized HTML, CSS, JavaScript, Bootstrap, and ReactJS to create an engaging and visually appealing user experience.
- Deployed the application using Vercel, ensuring seamless performance and accessibility.
- Integrated Movie APIs to fetch and display movies for users.
- Implemented React.js to build dynamic components, improving website interactivity and user experience.
- Utilized RESTful APIs to fetch and display real-time data, enhancing the website's functionality.

Prank calculator - <https://prank-calculator-95obhprwd-rabins-projects.vercel.app/>

- Utilized HTML, CSS, Bootstrap and JavaScript to create a visually appealing and interactive user interface.
- Implemented React.js to build dynamic components, improving website interactivity and user experience.
- Ensured responsiveness and cross-browser compatibility, optimizing the site for various devices.
- Deployed the application using Vercel, ensuring seamless performance and accessibility.

Not Todo List - <https://react-not-todo-list.vercel.app/>

- Designed and implemented a Mongo database to store and manage website content, ensuring efficient data retrieval and storage.
- Implemented a responsive front-end using React to enable intuitive task management functionalities and user interaction.
- Utilized MongoDB for efficient data storage, ensuring seamless retrieval and persistence of task-related information.
- Utilized Git for version control and to manage the coding.
- Designed and implemented the server-side functionality using Node.js and Express.js, enabling robust API endpoints for data manipulation and interaction with the database.
- Incorporated CRUD (Create, Read, Update, Delete) operations to facilitate task management, allowing users to add, swipe, and delete tasks.

Unit Converter - <https://unitconverter-five.vercel.app/>

- Utilized HTML, CSS, Bootstrap, and JavaScript to create a visually appealing and interactive user interface.
- Implemented React.js to build dynamic components, improving website interactivity and user experience.
- Utilized npm packages to convert measurement from one unit to another unit.

Currently enrolled in an intensive job-ready program at Dented Code, dedicated to advancing proficiency in web development technologies and industry best practices. This program focuses on honing skills in HTML, CSS, JavaScript, React.js, Node.js, and emphasizes the adoption of best coding practices.
