---

PROFESSIONAL SUMMARY

Highly Dedicated and motivated full stack developer with 2+ years of experience in building scalable and effective software solutions. Proficient in designing and developing database, creating RESTful APIs, and writing clean and maintainable code with high-performance software systems. Possesses excellent problem-solving and communication abilities, with strong desire to learn about and adopt new technologies and focus on career growth.

SKILLS

Technical Skills

Frontend	:	HTML, CSS, JavaScript, React, Vite, Redux, Tailwind, TypeScript
Backend	:	Node.js, Express, Prisma, Java
Database	:	MongoDB, MySQL, Firebase
Other Skills	:	Unit testing, Debugging, AWS, CI/CD, Jira
Tools	:	GitHub, Visual Studio Code, IntelliJ, Chrome Developer Tools, Postman

Soft Skills

Problem-solving | Communication and Collaboration skills | Attention to details | Quick Learner

---

PROFESSIONAL EXPERIENCE

Full Stack Developer   **August 2023 - May 2024**

Self Plus Plus   Queanbeyan, Australia

- Actively involved in developing server-side web applications using Node.js and Express, ensuring seamless integration with front-end technologies
- Utilized Prisma as the ORM tool to streamline database integrations and implemented CRUD operations in MySQL, optimizing data retrieval and updating processes.
- Utilized Postman to rigorously test APIs endpoints, ensuring functionality, performance, and security.
- Managed version control using Git, facilitating collaborative development and codebase maintenance.
- Created a RESTful API that allowed for seamless integration with other applications.
- Developed a secure authentication system that ensured user privacy and data security.
- Collaborated with cross-functional teams, including front-end developers and product managers, to ensure cohesive and efficient application development.
- Implemented a Responsive Design that allowed the application to be used on various devices with the same user experience.
- Optimized database queries to improve application performance and reduce response times by 15%.
- Debugged the application using Chrome inspector.

Front-End Developer   **Feb 2022 – July 2023**

Rebb Tech   Sydney, Australia

- Developed and maintained react application using HTML5, CSS3, TypeScript, React.js, Redux, and Tailwind.
- Used Git as a version control system to manage and track changes in the codebase.

- Designed and developed a RESTful API for the frontend using React and Axios to facilitate effective communication with backend services, enhancing system interoperability.
- Collaborated with back-end developers to integrate front-end components with server-side logic and APIs.
- Integrated JWT for secure authentication and implemented rigorous input validation to enhance API security, reducing potential security threats.
- Stayed up to date with the latest trends, technologies, and best practices.
- Debugged and fixed the bugs to ensure optimal performance and functionality of web application.

EDUCATION

Bachelor's degree in information technology   **July 2020 - September 2022**

Victoria University   Sydney, NSW, Australia

Diploma and Advanced Diploma in information technology   **May 2017 - May 2020**

Kingston Institute Australia   Sydney, NSW, Australia
